INFORMATION AND STATISTICS DIVISION PUBLICATION INFORMATION

Below is a list of the publications compiled by the Information and Statistics Division. Questions may be directed to us by telephoning (202) 426-3791 or writing Management Standards & Statistics Division, AMS-400, Federal Aviation Administration, Washington, DC 20591.

FAA Statistical Handbook of Aviation is a convenient source for historical data. It presents statistical information pertaining to the Federal Aviation Administration, the National Airspace System, Airports, Airport Activity, U.S. Civil Air Carrier Fleet, U.S. Civil Air Carrier Operating Data, Airmen, General Aviation Aircraft, Aircraft Accidents, Aeronautical Production & Import/Export.

Reporting period:	Calendar Year
Latest edition:	1982 data
Order from:	U.S. Government Printing Office or National Technical Information Service

Date 1983 information will be available:	Various
---	---------

Date next publication is scheduled:	December 1984 (1983 data)
--	---------------------------

U.S. Civil Airmen Statistics is an annual study of detailed airmen statistics. It contains calendar year statistics on pilot and nonpilots and the number of certificates issued.

Reporting period:	Calendar Year
Latest edition:	1982 data
Order from:	Information & Statistics Division (FAA)

Date 1983 information is available:	March 1984
--	------------

Date next publication is scheduled:	June 1984 (1983 data)
--	-----------------------

Census of U.S. Civil Aircraft is an annual publication that includes statistical data on the registered civil fleet, air carrier aircraft, and general aviation aircraft--both registered and active, detailed reports for general aviation aircraft by owner's state and county, and registered aircraft by make and model.

Reporting period:	Calendar Year
Latest edition:	1982 data
Order from:	National Technical Information Service

Date 1983 Information will be available:	May 1984
---	----------

Date next publication is scheduled:	September 1984 (1983 data)
--	----------------------------

FAA Air Traffic Activity furnishes terminal and en route air traffic activity. information (i.e., operations, flight plans filed) of the National Airspace System. The data is from the FAA-operated Airport Traffic Control Towers, Air Route Traffic Control Centers, Flight Service Stations, and Approach Control Facilities.

Reporting period:	Fiscal Year
Latest edition:	1983 data
Order from:	U.S. Government Printing Office or National Technical Information Service

Date 1984 information will be available:	January 1985
---	--------------

Date next publication is scheduled:	April 1985 (1984 data)
--	------------------------

General Aviation Pilot and Aircraft Activity Survey includes data on the type and source of aircraft flight plan and weather information services, trip length in time and distance, pilot age and certification, estimates of total 1981 general aviation operations, fuel consumption and aircraft miles flown. The survey was made by the Federal Aviation Administration with the assistance of the Civil Air Patrol.

Reporting period:	Survey conducted in 3-year intervals
Latest edition:	1981 data
Order from:	National Technical Information Service

Date 1984 information is available:	January 1986
--	--------------

Date next publication is scheduled:	April 1986 (1984 data)
--	------------------------

General Aviation Activity and Avionics Survey presents the results of the General Aviation Activity and Avionics Survey conducted to obtain information on the activity and avionics of the U.S. registered general aviation aircraft fleet. The survey reveals estimated flying time of the active general aviation aircraft, and other statistics by manufacturer/model group, aircraft type, state and region of based aircraft, and primary use. Estimates are included on fuel consumption, lifetime airframe hours, avionics, and engine hours.

Reporting period:	Calendar Year
Latest edition:	1982 data
Order from:	National Technical Information Service or Government Printing Office

Date 1983 Information will be available:	October 1984
---	--------------

Date next publication is available:	February 1985 (1983 data)
--	---------------------------

FAA Directory published twice a year, it contains six section of data: Washington/Region/Center headquarters; field facilities; regional area maps and organizational charts; alphabetical listing; special interest groups; and, a glossary.

Latest edition: November 1983
Order from: Government Printing Office

Date next publication
is scheduled: May 1984

Airport Activity Statistics of Certificated Route Air Carriers joint publication of the Federal Aviation Administration and the Civil Aeronautics Board furnishes airport activity of the certificated route air carriers. Included in the data are passenger enplanements, tons of enplaned freight, express and mail. Both scheduled/nonscheduled service and domestic/international operations shown by airport and carrier are included. This report includes departures by airport, carrier and type of operation, and type of aircraft.

Reporting period: Calendar Year
Latest edition: 1982 data
Order from: Government Printing Office

Date 1983 Information
will be available: July 1984

Date next publication
is available: September 1984 (1983 data)

Ordering Information

Addresses are listed below for ordering or information purposes.

National Technical Information Service
5285 Port Royal Road
Springfield, Virginia 22161

Telephone: (703) 487-4650 (Use this number if you have a
stock number)
(703) 487-4780 (This is the Identification Section.
Use this number if you do not have
a stock number.)

Format: Microfiche - \$3.50
Hard copy made from microfiche. Cost depends on number
of pages in report.

U.S. Government Printing Office
Public Documents Department
Washington, DC 20402

Telephone: (202) 783-3238 (Order and Inquiries)

Format: Hard copy--original published form. Cost varies with
documents.

FOREWORD

This FAA publication furnishes terminal and en route air traffic activity information of the National Airspace System. The data have been reported by the FAA-operated Airport Traffic Control Towers (ATCTs), Air Route Traffic Control Centers (ARTCCs), Flight Service Stations (FSSs), and Approach Control Facilities. These reports are used as a guide in determining the need for larger or additional facilities, and possible increases in personnel at existing facilities.

The following forms are used for reporting:

FAA-7230-1--Airport Operations and Instrument Operations for VFR
Towers Monthly Summary

FAA-7230-12--Instrument Approaches Monthly Summary

FAA-7230-13--Monthly Activity Record--Flight Service Stations

FAA-7230-14--ARTCC Operations and Oceanic Operations Monthly Summary

FAA-7230-26--Instrument Operations and Stage III/TCA Monthly Summary

Facsimiles of these forms are shown in the Appendix.

Tables in Chapter I show aircraft handled under instrument flight rules (IFR) at ARTCC centers by aviation category, center, and region. Chapter II includes summaries of aircraft operations at FAA-operated towers by type of operation, aircraft category, state, and region. Instrument operations at towers and radar approach control facilities (RAPCONs and RATCCs) are also included. Chapters III and IV include summaries of instrument approaches at FAA ARTCCs, and approach control facilities and secondary airports. Data for FSSs, and IFSSs appear in Chapter V. This information includes total flight services, IFR-DVFR and VFR aircraft contacted, IFR-DVFR and VFR flight plans originated, pilot briefs and airport advisories by facility, state, and region.

Rank order tables are provided to give the user a picture of the busiest facilities in the system. Historical tables are included where possible to show changes in growth.

Hub designations are based on the number of enplanements within the 50 States, and other U.S. areas as reported in Airport Activity Statistics of Certificated Route Air Carriers.

The FAA Air Traffic Activity report is prepared by the Statistical Analysis Branch, Management Standards & Statistics Division, Office of Management Systems, by Nancy Trembley. Suggestions and comments on the scope and content of this report are requested and will be given careful consideration on planning future editions.

GLOSSARY

AIR CARRIER--An air carrier holding a Certificate of Public Convenience and Necessity issued by the Civil Aeronautics Board to conduct scheduled services over specified routes and a limited amount of nonscheduled operations.

AIRCRAFT CONTACTED--Aircraft with which the flight service stations have established radio communications contact. One count is made for each en route landing or departing aircraft contacted by a flight service station regardless of the number of contacts made with an individual aircraft during the same flight. A flight contacting five FSSs would be counted as five aircraft contacted. (Chapter V)

AIRCRAFT HANDLED--See IFR Aircraft Handled

AIRCRAFT OPERATIONS--The airborne movement of aircraft in controlled or noncontrolled airport terminal areas, and counts at en route fixes or other points where counts can be made. There are two types of operations: local and itinerant. (Chapter II)

1. Local operations are performed by aircraft which:
 - (a) Operate in the local traffic pattern or within sight of the airport.
 - (b) Are known to be departing for, or arriving from flight in local practice areas located within a 20-mile radius of the airport.
 - (c) Execute simulated instrument approaches or low passes at the airport.
2. Itinerant operations are all aircraft operations other than local operations.

AIRPORT ADVISORY SERVICE--A service provided by flight service stations at airports not served by a control tower. This service consists of providing information to arriving and departing aircraft concerning wind direction and speed, favored runway, altimeter setting, pertinent known traffic, pertinent known field conditions, airport taxi routes and traffic patterns, and authorized instrument approach procedures. This information is advisory in nature and does not constitute an ATC clearance. (Chapter V)

AIRPORT TRAFFIC CONTROL TOWER--A terminal facility which through the use of air/ground communications, visual signaling, and other devices, provides ATC services to airborne aircraft operating in the vicinity of an airport and to aircraft operating on the movement area. (Chapter II)

AIR ROUTE TRAFFIC CONTROL CENTER (ARTCC)--A facility established to provide air traffic control service to aircraft operating on an IFR flight plan within controlled airspace and principally during the en route phase of flight. When equipment capabilities and controller workload permit, certain advisory/assistance service may be provided to VFR aircraft. (Chapter I)

AIR TAXI--An air taxi operator which: (1) performs at least five round trips per week between two or more points and publishes flight schedules which specify the times, days of the week and places between which such flights are performed; or (2) transports mail by air pursuant to a current contract with the U.S. Postal Service.

AIR TRAFFIC--Aircraft operating in the air or on an airport surface, exclusive of loading ramps and parking areas.

APPROACH CONTROL FACILITY--A terminal air traffic control facility providing approach control service. (Chapter IV)

AIR TRAFFIC HUB--Air traffic hubs are not airports; they are the cities and Standard Metropolitan Statistical Areas requiring aviation services. Communities fall into four classes as determined by each community's percentage of the total enplaned passengers in scheduled carriers in the 50 States, the District of Columbia, and other U.S. areas designated by the Federal Aviation Administration.

L	Large	1.00%
M	Medium	0.25% to 0.99%
S	Small	0.05% to 0.24%
N	Nonhub	Less than 0.05%

APPROACH CONTROL FACILITY--A terminal air traffic control facility providing approach control service. (Chapter IV)

APPROACH CONTROL SERVICE--Air traffic control service provided by an approach control facility for arriving and departing VFR/IFR aircraft, and on occasion, en route aircraft. At some airports not served by an approach control facility, the ARTCC provides limited approach control service. (Chapter IV)

ARTCC--See Air Route Traffic Control Center.

CENTER--See Air Route Traffic Control Center.

CENTER AREA--The specified airspace within which an air route traffic control center (ARTCC) provides air traffic control and advisory service. (Chapter II)

CENTER RADAR APPROACH CONTROL (CERAP)--A combined air route traffic control center (ARTCC) and a terminal radar approach control facility (TRACON).

CERAP--See Center Radar Approach Control.

COMBINED STATION/TOWER (CS/T)--An air traffic control facility which combines the functions of a flight service station and an airport traffic control tower. (Chapter V)

CONTROL TOWER--See Airport Traffic Control Tower.

CS/T--See Combined Station/Tower.

DEFENSE VISUAL FLIGHT RULES (DVFR)--Rules applicable to flights within an Air Defense Identification Zone conducted under the visual flight rules in Federal Aviation Regulation, Part 91. (Chapter V)

DVFR--See Defense Visual Flight Rules.

FAA--Federal Aviation Administration.

FACILITY--See Air Traffic Control Facility.

FLIGHT PLAN--Specified information relating to the intended flight of an aircraft, that is filed orally or in writing with a flight service station or an air traffic control facility. (Chapter V).

FLIGHT SERVICE STATION (FSS)--Air Traffic Service facilities within the National Airspace System which provide preflight pilot briefing and en route communications with VFR flights, assist lost IFR/VFR aircraft, assist aircraft having emergencies, relay ATC clearances, originate, classify, and disseminate Notices to Airmen, broadcast aviation weather and NAS information, receive and close flight plans, monitor radio NAVAIDS, notify search and rescue units of missing VFR aircraft and operate the national weather teletypewriter systems. In addition, at selected locations, FSSs take weather observations, issue airport advisories, administer airmen written examinations, and advise Customs and Immigration of transborder flight. (Chapter V)

FLIGHT SERVICES--See Total Flight Services.

FSS--See Flight Service Station.

GENERAL AVIATION OPERATIONS--Takeoffs and landings of all civil aircraft, except those classified as air carriers. (See also Aircraft Operations.) (Chapter II)

HUB--See Air Traffic Hub.

IFR--See Instrument Flight Rules.

IFR AIRCRAFT HANDLED--The number of IFR departures multiplied by two, plus the number of IFR overs. This definition assumes that the number of departures (acceptances, extensions, and originations of IFR flight plans) is equal to the number of landings (IFR flight plans closed.) (Chapter I)

IFR DEPARTURES--An IFR departure includes IFR flights that are:

- (1) Originating in a Center's area;
- (2) Extended by the Center;
- (3) Accepted by the Center under SOLE EN ROUTE clearance procedures. (Chapter I)

IFR OVERS--An IFR flight that originates outside the ARTCC area and passes through the area without landing. (Chapter I)

IFSS--See International Flight Service Station.

INSTRUMENT APPROACH--A series of predetermined maneuvers for the orderly transfer of an aircraft under instrument flight conditions from the beginning of the initial approach to a landing, or to a point from which a landing may be made visually. It is prescribed and approved for a specific airport by competent authority (Federal Aviation Regulation Part 91). (Chapters III and IV)

INSTRUMENT FLIGHT RULES (IFR)--Rules governing the procedures for conducting instrument flight.

INSTRUMENT OPERATION--An aircraft operation in accordance with an IFR flight plan or an operation where IFR separation between aircraft is provided by a terminal control facility or air route traffic control center. (Chapter II)

INTERNATIONAL FLIGHT SERVICE STATION (IFSS)--A central operations facility in the flight advisory system, manned and equipped to control aeronautical point-to-point telecommunications, and air/ground telecommunications with pilots operating over international territory or waters, providing flight plan following, weather information, search and rescue action and other flight assistance operations. (Chapter V)

ITINERANT OPERATIONS--See Aircraft Operations.

LOCAL OPERATIONS--See Aircraft Operations.

MILITARY OPERATIONS--See Aircraft Operations.

PILOT BRIEFING--A service provided by the Flight Service Station to assist pilots in flight planning. Briefing items may include weather information NOTAMS, military activities, flow control information and other items as requested. (Chapter V)

RADAR AIR TRAFFIC CONTROL FACILITY (RATCF)--An air traffic control facility, located at a U.S. Navy or Marine Corps Air Station, utilizing surveillance, and normally, precision approach radar and air/ground communication equipment to provide approach control services to aircraft arriving, departing or transiting the airspace controlled by the facility. The facility may be operated by the FAA, the USN and FAA, the USN, or the USMC and service may be provided both civil and military airports. (Chapters II, III, and IV)

RADAR APPROACH CONTROL (RAPCON)--An air traffic control facility, located at U.S. Air Force Base, utilizing surveillance and, normally, precision approach radar and air/ground communications equipment to provide approach control services to aircraft arriving, departing or transiting the airspace controlled by the facility. The facility may be operated by the FAA or the USAF and service may be provided to both civil and military airports. (Chapters II, III, and IV)

RADIO CONTACTS--The initial radio call-up to a flight service station by en route aircraft, a complete interchange of information and a termination of the contact. (Chapter V)

RAPCON--See Radar Approach Control (Air Force).

RATCF--See Air Traffic Control Facility (Navy).

TERMINAL RADAR APPROACH CONTROL (TRACON)--An FAA air traffic control facility using radar and air/ground communications to provide approach control services to aircraft arriving, departing or transiting the airspace controlled by the facility. Service may be provided to both civil and military airports. A TRACON is similar to a RAPCON (USAF), RATCF (Navy) and ARAC (Army). (Chapters II,III,IV)

TOTAL FLIGHT SERVICES--The sum of flight plans originated and pilot briefs, multiplied by two, plus the number of aircraft contacted. No credit is allowed for airport advisories. (Chapter V)

TOTAL OPERATIONS--All arrivals and departures performed by military, general aviation, air taxi, and air carrier aircraft. (Chapter II)

TOWER--See Airport Traffic Control Tower.

TRACON--See Terminal Radar Approach Control.

VFR--See Visual Flight Rules.

VFR TOWER--An airport traffic control tower that does not provide approach control service. (Chapter II)

VISUAL FLIGHT RULES (VFR)--Rules that govern the procedures for conducting flight under visual conditions. The term "VFR" is also used in the United States to indicate weather conditions that are equal to or greater than minimum VFR requirements. In addition, it is used by pilots and controllers to indicate type of flight plan. (Chapter V)
